Extron Desktop Power Supplies

Replacement Power Supplies, 100-240VAC, 50/60 Hz to 9, 12, and 15 Volts DC

FEATURES

- Universal IEC input easily accepts international power cords
- Compact footprint requires little desktop or rack space
- US style Edison 6-foot detachable IEC cord included
- CE, UL and EC listed
- Worldwide compatibility, 100VAC to 240VAC universal

DESCRIPTION

Extron offers desktop power supplies that can be ordered and installed easily. Each power supply is CE, UL, and EC listed and features worldwide compatibility — 100-240VAC universal — with an IEC input to accept international power cords. These rugged and reliable power supplies provide sufficient amperage to allow two or three Extron products to be daisy chained to a single power supply.
